Chairman, Board of Selectmen

Dear Sir:

I would like to take this opportunity to thank you for the cooperation you and the other members of your board extended me this past year. Likewise, I cannot exclude your Road Agent for his cooperation.

Enclosed you will find the TRA Applications showing the accomplishments during the summer of 1964. Would you file these with your TRA correspondence.

Very soon Town Meeting day will be here and the townspeople are going to ask which road or roads will be constructed with TRA funds this year. Keep in mind that the only requirements we place on the selection of a road is that it be a mail route or a school bus route or a connecting road. If the selectmen determine a good project location and you are wondering just how far your money will go, drive over the project to determine how long it is. Then multiply this length times \$15,000 per mile and compare your answer with the money available. Previously constructed TRA projects may not be considered.

Gravel is very scarce in many towns. Would you kindly look into the gravel situation in your town and locate all gravel deposits for future construction projects. I will make a note of these deposits when I visit with you for TRA locations.

A Note of Interest: Frank P. Preston, former Division Engineer of Division 5, passed away November 9, 1964.

(1) Balance (if any) from 1964-65 funds	\$ 304.44
(2) 1965-1966 TRA funds - State apportion "A"	2,241.85
- Town share	336.28
Total	<u>\$2,882.57</u>

Money listed under number 1 must be spent prior to June 15, 1965.
Funds under number 2 will become available July 1, 1965.

Very truly yours,

LEO R. SCANNELL,
Division Engineer

Chapter 15, Laws of 1959 amends RSA 76 by inserting after section 11 the following new section: 76:11-a Information Required. The tax bill which is sent to every person taxed, or his agent, if known, as provided in section 11, shall show the rate for municipally, school and county taxes separately. Any town, through its selectmen, may request that the tax commission compute the rates which will appear on the tax bills as provided hereunder and upon said request the tax commission shall furnish the required information.

A combined or total rate is shown above for those towns with a single school district and with no precincts or village districts. It is recommended that the combined rate be shown on each tax bill in addition to the separate rates. Precinct and multiple school district towns and cities should also arrange their tax bills so that each taxpayer will know his total tax rate as well as the rate breakdown.

		<u>\$ 1,955.32</u>

\$36,660.06

Comparative Statements of Appropriations and Expenditures - Estimated and Actual Revenues: (Exhibits A-3 & A-4)

Comparative statements of appropriations and expenditures, estimated and actual revenues for the fiscal year ended December 31, 1964, are presented in Exhibits A-3 and A-4. As indicated by the budget summary (Exhibit A-4), a net overdraft of appropriations of \$10,907.68, less a revenue surplus of \$1,464.77, resulted in a net budget deficit of \$9,442.91.

Summary Statement of Receipts and Expenditures: (Exhibit B-1)

A summary statement of receipts and expenditures for the fiscal year ended December 31, 1964, made up in accordance with the uniform classification of accounts, is included in Exhibit B-1. Proof of the Treasurer's balance as of December 31, 1964, is indicated in Exhibit B-2.

AUDIT PROCEDURE

The accounts and records of all town officials charged with the custody, receipt and disbursement of public funds were examined and audited. Vouchers and cancelled checks were compared with supporting invoices and payrolls as well as entries in the books of record. Receipts were checked by source insofar as possible and totals of receipts and expenditures verified. Book balances were verified by comparison with reconciled bank balances made from statements obtained from depository banks. Verification of uncollected taxes was made by mailing notices to delinquent taxpayers as indicated by the Collector's records. The amounts of uncollected and unredeemed taxes as indicated in this report are therefore subject to any changes which may be necessitated by the return of verification notices.

GENERAL COMMENTS

Current Surplus - (Deficit):

The current financial condition of the Town changed from a current surplus(excess of total assets over current liabilities) of \$303.13, to a current deficit(excess of current liabilities over total assets) of \$8,856.93, in 1964, as shown herewith:

	December 31, 1963	December 31, 1964
<u>Total Assets</u>	\$67,938.16	\$48,493.07
<u>Current Liabilities</u>	67,635 .03	57,350.00
<u>Current Surplus - Deficit</u>	\$ 303.13	(\$ 8,856.93)

The current deficit resulted from substantial budget deficits in each of the last two fiscal years. To remain in sound financial condition, a town should have at all times sufficient assets to offset its current liabilities.

Therefore, it is recommended that provision be made in the 1965 town budget for a deficiency appropriation to cover at least a part of the current deficit of \$8,856.93. It is further recommended that in case the 1965 appropriation only covers a part, annual appropriations be made for this purpose until such time as the current deficit is entirely liquidated.

Overdraft of Appropriations and Application of Municipal Budget Law:

It is noted that there was a net overdraft of appropriations amounting to \$10,907.68. In other words, - total expenditures exceeded total appropriations by this amount, as indicated herewith:

Overdrafts of Appropriations	\$ 15,445.62
Unexpended Balances of Appropriations	4,537.94
<u>Net Overdraft of Appropriations</u>	<u>\$ 10,907.68</u>

In accordance with the provisions of Section 10 of the Municipal Budget Law (R.S.A. 32), when it becomes necessary for a Board of Selectmen to make expenditures in excess of budgetary appropriations, it is required that an application, approved by the budget committee, be made to the Tax Commission for the authorization of such excess expenditures. No such request was made during 1964, therefore expenditures totalling \$10,907.68 were made without authorization in that year.

If in the future an emergency arises whereby it becomes necessary to exceed appropriations, application for this authority should be made prior to the date of the expenditure.

Surety Bonds:

The surety bonds of the Town Clerk and Town Treasurer should be increased in amount as follows:

Town Clerk - increase from \$2,000.00 to \$3,000.00
Town Treasurer - increase from \$15,000.00 to \$20,000.00

Conclusion:

The provisions of Chapter 184, of the Laws of 1955, require that this report of the summary of findings and recommendations (letter of transmittal) shall be published in the next annual report of the Town.

We extend our thanks to the officials of the Town of Allentown for their assistance during the course of the audit.

Yours very truly,

Report Of The Forest Fire Warden And Your District Chief

The 1964 forest fire season surpassed the record year of 1963 in both length and severity. For the second successive year, we experienced a rainfall deficiency of more than ten inches and the compounding of such drought conditions, together with the many days of strong, dry winds, characterized 1964 as one of the most hazardous years in the past half century. Although our fire season was three weeks longer than that of 1963, the number of fires showed only a slight increase and more remarkable was the fact that the area burned dropped from 2280 acres in 1963 to 900 acres in 1964. Early detection and rapid response kept many potential fire disasters from becoming reality. We all owe a debt of gratitude to the men in this community who responded and fought our fires so efficiently. Our state is now 86% wooded and its economy - both industrial and recreational - is greatly dependent on this forest resource. The responsibility for adequate fire protection of this great area - 4,350,000 acres - is everyone's responsibility and prevention is one of our most effective tools.

Prevention is good common sense.

1. Take your rubbish to the town dump. If you must burn, obtain a permit and watch your fire until it is dead out.
2. Instruct your children in fire safety. Keep matches from young children. Explain to them the dangers of lighting matches and making outdoor fires.

3. Be sure discarded smoking material and matches are out.

A major portion of our preventable fires this year are chargeable to three causes: (1) permit fires allowed to escape; (2) children playing with matches; and (3) smokers. Let's be mindful of the fact that all such fires endanger property and lives.

We wish to thank you for your very fine cooperation during the past fire season and with your continued cooperation we are confident that we can improve our fire record in 1965.

Superintendent's Report

We ended the school year of 1963-64 with a yearly membership of 138. As of the middle of December, we had an active enrollment of 167. By grades, we have: 1-32; 2-25; 3-23; 4-12; 5-18; 6-21; 7-24; 8-12. There seems to be no practical way of predicting enrollments. We do know that we will need another teacher next year to separate grades 7 and 8. This will leave us with only one combination for grades 5 and 6 with 30 pupils. With continued growth, it is only a matter of time before additional classrooms become necessary. We should be giving this problem serious thought.

Through a combination of circumstances, it became necessary to hire 3 different teachers. Mr. Kenny had the opportunity for professional advancement when offered the principalship of the Orford Schools, grade 1-12. Mrs. Mahoney secured a better paying position in the Goffstown union. Mr. Morgan accepted a Peace Corps assignment in Nigeria.

We believe we were fortunate in securing our present personnel, all of whom came to us well recommended. We have tried to keep our salaries fairly competitive, which proved helpful. The Massachusetts Legislature passed a \$5,000 minimum, an increase of \$500. Although only a few New Hampshire districts will match this figure this year, its effect will be felt in this southeastern section of New Hampshire. We hope we can keep step with the rest.

The state average cost per pupil in high school last year was \$489. The tuition rate at Pembroke Academy will be \$485, and at Concord \$575. It is safe to predict increasing costs at the high school level as well as at the elementary.

Allenstown received from the sweepstakes \$4,746.89 most of which, \$3,428.93, was used to reduce the tax assessment. The difference of \$1,317.96 should show as a balance, unless its use is authorized by the budget committee and the district for other purposes.

We believe the Allenstown school is making good progress and look forward to the day when a single grade to a teacher can be justified. When that time arrives, it may well be that we will need two sections of some lower grades!

Your continued understanding and cooperation are appreciated.

Respectfully submitted,

C. Maurice Gray
